Figure 1. Aerial photograph of the study area. The area is divided into three main sections: the northern section (top), the central section (middle), and the southern section (bottom). The northern section is characterized by a dense forest of tall trees. The central section is a large, open field with a few scattered trees. The southern section is a smaller, more irregularly shaped area with a mix of trees and open space. The area is bounded by a road on the left and a river on the right.
